Software based Video Communication Solution

To excel in today's fast-moving, global business environment, you have to interact and collaborate with co-workers, partners, and customers all over the world at a moment's notice. You need to continuously innovate and transform your business model to maintain your edge-and you need to plan ahead to respond rapidly to unexpected issues that impact business continuity.

Legacy Video Conference & Unified Communications systems of all types have failed to live up to their promise because of technical complexity and user interface issues. However, an increasingly distributed workplace, growing technical maturity, and real return on investment (ROI) proof cases are coalescing to herald in the next generation of video conferencing systems, ones that really work and have true business benefits.

In almost every market sector, it lowers costs, increases productivity and improves communication, helping organizations to achieve their ultimate goal: IMPROVE THE BOTTOM LINE.

Communication	Cost	Productivity
<ul style="list-style-type: none"> Builds Relationships Quicker Decision Making 	<ul style="list-style-type: none"> Reduced Travel & Time Costs Low Communication Costs 	<ul style="list-style-type: none"> Instant Meetings 24/7 Real-time Video & Data Exchange

Why SeeltFirst™ ?

"Transmission of audio/video via the Internet consumes huge bandwidth" – SeeltFirst breaks this conventional global belief with demonstrated evidence. The Variable Bandwidth Processor (VBP) of SeeltFirst allows transmission of videos via the Internet on low bandwidths. SeeltFirst enables any business to easily create interactive streaming media by synchronizing video and web assets and by serving quality images to engage their audience on any device. Be it video conferencing, distance learning, live web broadcast or sharing or archiving the video or transferring desktop controls – SeeltFirst enables it all.

SeeltFirst™ Solutions*

Our leading-edge streaming media technology solution- gives a brand-new dimension to effective communication.

Team Meet	Live	Broadcast	Team Share	Summit
<ul style="list-style-type: none"> One-to-one & multi location video conferencing Reservation less & scheduled video conferences Concurrent multi-sessions Public & private chat Bandwidth friendly <p style="text-align: right;">more</p>	<ul style="list-style-type: none"> Video transmission over variable bandwidth Archival facility for on-demand viewing High resolution stop photos anywhere Supports all major streaming formats Capture and publish anywhere <p style="text-align: right;">more</p>	<ul style="list-style-type: none"> Synchronized slides + video Webcasts for everyone Customizable interface On demand archives, instantly available Embed content in multiple frames Minimum hardware & bandwidth requirements <p style="text-align: right;">more</p>	<ul style="list-style-type: none"> Multipoint interactivity Application sharing Remote access to PC's over internet Public and private chat <p style="text-align: right;">more</p>	<ul style="list-style-type: none"> Multiple moderators / co.moderators Multipoint video connectivity Hand raise Concurrent multi-sessions Archival for on-demand viewing Public & private chat <p style="text-align: right;">more</p>

*SeeltFirst can be integrated with any third party Hardware and Software

Corporate & Video Meetings
